

IT COST \$200,000  
TO HAVE A RIOTHEAVY LOSS INFLICTED AT  
NEW ORLEANS.

Damage to Cotton, Wharves and Vessels From Incendiary Fires—Labor Troubles take a New Form—Governor May Have to Call Out Troops to Preserve Peace.

NEW ORLEANS, La., Nov. 5.—Developments in the labor troubles yesterday show the desperation of the white men who work along the levee and indications are that the worst is not yet over. Yesterday afternoon the torch was applied to the wharf of the West India and Pacific Steamship company on the levee at the foot of N. street, and before the flames were subdued there was a loss of \$200,000 in merchandise, cotton and damage to one of their steamships. About half was insured.

The trouble is a race war between the white and colored screwmen and longshoremen. It resulted Saturday in a riot, in which one negro was killed and several wounded, and then a sort of truce was patched up, by which all the steamship agents agreed, except one, Stoddard & Co., to employ only white laborers on their ships. Then came the longshoremen's strike, and that culminated in white longshoremen refusing to work with the negroes. For the last two days things have been comparatively quiet, but their was little work done on the levee, one steamboat being loaded by negroes under protection of fifty police. Saturday M. J. Saunders, agent of the West India line, and who was one of those who signed the agreement to employ only white men, notified the white screwmen that unless they could supply him with the necessary labor he would employ negroes to unload his ships. He called on the police for protection. The white screwmen replied they would not recede from their position.

The freight sheds were of light, open construction, extending over 600 feet of the levee front. The contents were goods for export to Liverpool. Of the 6,000 bales 4,000 were intended for the steamer Yucatan and 2,000 for the Arabian. The fire started in the cotton under the sheds and the blaze seemed to have come from a dozen places at once, indicating it had been set. The fire burned away the shed for 600 feet, destroying 4,000 bales of cotton, 820 barrels of molasses and 750 slaves. Five Louisville and Nashville cars were burned. They were loaded with oil cake; loss, \$500. Several piles of shingle wood and staves were scorched and the Morris baths were hurt to \$150. The steamship Haverstoe, consigned to Knap, Frederick & Co., had her forecastle, mainmast and forward rigging damaged; loss, \$5,000. She was towed out into the stream. The French Steamer Colona of the Transatlantic company was slightly damaged. The loss of tarpaulins was \$3,000. Nearly all the outside cotton was covered with them. They were owned by the wharf people, the steamboat men, and the West India line agents. The white stevedore, McCune, who was superseded by the negro firm of Cary, Allen & Co., lost \$3,000 worth of tools.

The police are almost powerless, and it is likely the governor will order out troops.

## LOUISVILLE FIREMEN INJURED.

## Falling Walls Strike Many Workers—Loss by Flames.

LOUISVILLE, Ky., Nov. 5.—Fire broke out yesterday afternoon about five o'clock in the building occupied by the Louisville branch of the Singer Sewing Machine Manufacturing company at 552 Fourth avenue, and before the flames could be extinguished did about \$50,000 worth of damage. Just as the firemen had the fire under control the rear wall of the Singer building fell and five firemen were caught under it and badly hurt. Two of them may die. The Singer Sewing Machine company's loss will be \$30,000, on which there is no insurance. T. N. Lindsay, pictures, frames and wall paper, 554 Fourth avenue, was damaged \$10,000, the loss on the building was about \$8,000. Other small losses will aggregate \$2,000. The fire is believed to be of incendiary origin.

## Fire at Hartford, Conn.

HARTFORD, Conn., Nov. 5.—The Neal, Goff & Inglis building, 428-432 Main street, was burned last night with a total loss of about \$150,000, partially covered by insurance. It is not known at this time whether any lives were lost. The cause of the fire is unknown. At 7:30 Fred Grosbeck, clerk in the furnishing store, entered the building and lighted the gas. Neither he nor the policeman, who had just made the rounds, found that he dropped a burning match. The bursting out of the heavy glass windows of the store gave rise to a theory of the explosion of a gas meter or oil barrel.

## Fertilizer Works in Danger.

HAMMOND, Ind., Nov. 5.—Fire broke out in the fertilizer works of the G. H. Hammond company's plant yesterday afternoon and by heroic work of the city department the flames were confined to the structure in which the blaze originated. Thirteen streams played on the flames and at 2:30 o'clock the firemen had them under control. This will not interfere with the business. The loss is estimated at \$5,000, which is fully covered by insurance.

Many Killed on Both Sides Before the Engagement Ends.

LONDON, Nov. 5.—A dispatch from Quetta gives details of an attack Saturday morning by Waziri tribesmen upon the camp of the escort of the police officer who is engaged in the delimitation of the Waziristan-Punjab frontier. He finally found the corpse of his son, which he fully identified.

## Publishers Want Scale Reduced.

DETROIT, Mich., Nov. 5.—A strike involving every English daily paper in the city is one of the probabilities of the near future. For several months the publishers have been endeavoring to secure a new scale of wages for compositors that would reduce the present scale somewhat, but the men refuse. As all the dailies here use type setting machines for composition and as expert operators for these machines are not numerous a strike would be a very serious affair for the papers.

## Blaze at Portland, Oregon.

PORTLAND, Ore., Nov. 5.—The power house of the Willamette Steam Mills and Lumbering company, better known as Widler's mills, burned yesterday afternoon. The fire broke out in the boiler room and before an alarm could be turned in the room was ablaze. The plant was very valuable and was almost ruined. The total loss will reach \$150,000. There was no insurance on that portion of the mill.

The prospects for November favor street railway work in nearly all branches.

WASHINGTON, Nov. 5.—The embargo which Germany has just placed against American cattle may have a sequel which the German authorities have not anticipated—viz.: an investigation as to the glanders and the disease known as horse syphilis, with which German horses brought to this country are affected. BIG BATTLE FOUGHT  
NEAR PORT ARTHURJAPANESE ARMIES CONTINUE  
TO FORCE THINGS.

Their Soldiers Take Two Towns and the Chinese Burn Another—Li Hung Chang to Take Supreme Command at China's Land Forces—Tried to Kill a Judge.

YOKOHAMA, Nov. 5.—Advices received here from the front show there has been heavy fighting in the country just north of Port Arthur. The dispatches received are brief and are silent on some important points. It appears that Field-Marshal Oyama divided his forces. While one division landed on the east coast of the peninsula north of Talienwan another division was detached with orders to effect a landing near Kin Chow and to proceed thence and join the main body of the army. This operation was a complete success. The Japanese encountered no Chinese warships and the transports reached Kayenka and disembarked troops, guns, horses and munitions in safety.

Kin Chow, which is a walled town, and which was believed to be held by a large garrison, was immediately attacked. The outer defenses were carried by the Japanese after a few hours' fighting. The Chinese made little further resistance, and the Japanese were soon masters of the place. In the meantime the Japanese fleet, which had conveyed the transports, opened a heavy fire on Talienwan and Kakuyon (Kayenka). The firing scarcely ceased for many hours.

## BOMB FOR A JUSTICE.

An Attempt to Kill an English Judge by Anarchists.

LONDON, Nov. 5.—A bomb exploded last night outside a house in Tilney street, Park Lane, two doors from the residence of Hon. Sir Henry Hawkins, one of the justices of the queen's bench division of her majesty's high court of justice. The front of the house was much damaged and the windows of houses on the opposite side of the street were smashed. The house was occupied, but nobody was hurt. The street was at once crowded by the police. A search revealed the remains of the bomb.

Justice Hawkins is the judge who sentenced Frederick Charles, Victor Cailles, Joseph Thomas Duncan and Jean Battolla, the Wallisan anarchists, to various terms of imprisonment. He also presided at the trials of other anarchists and imposed sentences of various degrees upon them. It is thought the explosion was an attempt to secure revenge against the judge, but the author of it made a mistake in the number of the judge's house. The sound of the explosion was heard for two miles.

Scott, wife of the proprietor of the Capital Turf exchange, vanquished three burglars who broke into her house last night after a desperate fight, in which she was seriously injured. The battle lasted nearly ten minutes, but Mrs. Scott did not faint until her assailants had gone. An hour elapsed before she revived sufficiently to give an account of the affair. She is a handsome woman of 45, six feet tall, and weighs 200 pounds. She was alone in the house reading in bed when the attempt at burglary was made.

## CHEERS FOR UPHAM SHOOK THE WALLS

OPERA HOUSE FILLED TO SATURDAY NIGHT.

An Immense Crowd Heard the Republican Candidate and Hon. Theron P. Keator Speak at the Myers Grand—The Latter's Fine Tariff Talk Held People Spellbound.

It looked as if the Myers Grand would need a new roof at one time Saturday night.

"Three cheers for Major Upham!" cried Hon. A. P. Lovejoy from the stage after the speakers were done.

The shuffle of feet and the creaking of seats developed into a roar as the hundreds of people in the opera house leaped to their feet as one man. Hats went into the air and a mighty cheer that made the spider-like scenery on the stage vibrate followed.

"Enthusiasm!"

You never saw anything like it. It reminded one of the remark that Major Upham had made in opening his speech when he said that he had not seen such gatherings of cheering people since the war broke out.

No wonder they cheered. For two hours they had listened with bated breath to the words of wisdom that came from the lips of Major Upham and Hon. Theron P. Keator.

Not a seat in the house was empty. People filled the aisles, the foyer and the stage. Standing room was at a premium and everyone who came in stayed in spite of the inconvenience of standing. Dr. Palmer introduced Major Upham and a round of applause greeted him.

"I see before me the same scene that I have looked upon all over Wisconsin," he said. "I have not seen them before since 1861 when the war broke out."

This, he continued indicated that the people were interested in something. When the democratic stringency and hard times came he was compelled to shut down his factory, he said and the democratic editor in Marshfield asked him what the men were going to do for a living.

"You have been telling them how to vote I answered," said Mr. Upham. "Now let me trade places with you. I'll tell them how to cast their ballots and you clothe and feed them."

Theories Didn't Hurt.

As long as the democrats confined themselves to free trade in theory it was all right, he argued, but when they got control it was not a theory that confronted the people but a condition and the worst one that could be imagined. He said he had often wondered from what books the democrats got the theories that they advanced and he had finally decided that they came from the Arabian Nights. In this book he had read of a man and his imaginary feast which he compared to the promises of the democracy. Since the workingmen had partaken of these promises they had enjoyed ample time to study the tariff.

The individuals were lost sight of in this campaign, he said, the same as they in '61 when they rallied to the defense of their country. These men, he continued, were patriots, but no more so than those who would rally at the polls next Tuesday with the same object in view; to preserve American institutions and labor.

"A man once saw a grave digger at work," he said, "and asked him who was dead."

"Why so and so," replied the grave digger.

"What was the complaint?" he asked.

"No complaint," replied the digger, "everybody is satisfied!"

So with the democrats, he said. If you asked the grave digger after next Tuesday he would say "no complaint."

As Major Upham ceased speaking a mighty cry of:

"U Rah Rah Wis! Con! Sin!" rent the air as a delegation of students from the state university crowded into the rear of the opera house.

"What's the matter with Upham?" asked a man with a red umbrella and a fog horn voice.

"He's all right!" came back an answer so dense in volume that it fairly shook the house.

Mr. Keator's Fine Argument.

Hon. Thomas P. Keator, the Chicago printer was then introduced, and for an hour and a half he held his audience so completely that you could have heard a pin drop. When they cheered it was with a mighty voice, but when he spoke they listened intently so as not to miss one word. Janesville people never heard a better tariff argument than the plain, everyday Chicago workman gave them.

He said when he was in Wisconsin two years ago General Bragg was on the stump, but this year when he asked where the "little general" was, they said he had "fallen in the last ditch; shot by that golden bullet from Milwaukee."

The last heard of the "eloquent Vilas" he was listening to McKinley (applause) at Madison.

"My subject," said Mr. Keator, "is the tariff from the standpoint of the laboring man. I am a printer by trade and earn my living at the case. I was a charter member of the Knights of Labor and as such I circled the globe, investigating the conditions of the laboring men in foreign countries. I know, therefore, what I am talking about."

He said he had been a member of organized labor all his life, continuing, and as such he would be a supporter of Major Upham in a spirit of fair play if for nothing else, for in the big Marshfield shops there had

never been a strike; he had never been sued for wages, and he had never had trouble of any kind with his men.

"Free trade does not exist in any country on the globe," he insisted. "They all have some duties, so don't let the democrats beguile you with 'tariff reform' cries" he said.

The common school history proved that the good times were under the protective tariff system and the hard times under "tariff reform" which did not protect but made it necessary to raise the money for government expenses by taxing the things most used; the necessities of life, while the luxuries came in free. Things not produced here should not be protected.

Outside Merchants Taxed.

"Suppose a merchant should come here from some other town. He has not helped to build Janesville streets, he has not helped to develop Janesville industries," he said "therefore when he comes here to compete with the men who have, you make him pay a license" he said. "This is 'tariff essence' he continued. "Now why permit the foreigners who have not helped develop the country, the vast city of America, come in and trade unless he pays the same license?"

Money had to be raised to run the government. Republicans raised it by the tariff on foreign goods. In England everything was taxed. A merchant's bill of account, checks and all other valuable papers had to be stamped and a tax paid on dogs and guns. This was not so here, for under a protective tariff the money was raised without it.

"But the United States collector is coming under democratic rule," he said. "You will pay a tax upon your earnings. You never saw him under republican rule, but under the Wilson bill he is coming."

The south, he said, ruled the democratic party and the south wanted tariff for revenue only and free trade. The northern democrat had nothing to say. Mills of Texas, drew the first democratic bill and he knew all about manufacturing for he lived in a town where the only manufactory was a linseed oil mill that hadn't run for years. [Laughter] When they wanted another it was drawn by Prof. Wilson who lived in a Virginia town where the only factory was a blacksmith shop. The laughter grew into a roar at this sally and when it subsided Mr. Keator continued.

"Two years ago the democrats said that tariff for revenue only would help the manufacturer," he said. "People believed and voted that way. Then five hundred banks failed (applause.) You did not see Coxey's army marching across the country under Harrison's administration (applause.) They said that the workman had to carry a taxed dinner pail when he went to work under republican rule," he went on. "Thank the Lord part of it was true; he went to work, (applause) but now that dinner pail hangs rusting behind the door while the working man puts a lunch in his pocket and goes to look for work!"

Manufacturers Hurt Also.

Manufacturers also believed the democrats' promises and they too had suffered when the financial kite was plunging tail up and head down in the sky. Democrats had given the whisky makers eight years in which to pay their taxes, while they were borrowing money to run the government. The tariff didn't make the rich richer and the poor poorer for statistics showed that under the protection tariff American labor was paid three times as much as the labor of any other country while capital got about the same return in both cases. Reciprocity died when they killed the McKinley bill; tariff protected American industries and reciprocity extended them.

Under the McKinley law, he continued, "we sold \$275,000,000 worth of goods in Europe above what were bought of them; under the tariff reform idea we paid foreign manufacturers \$18,000,000 more than we received from them."

The gold reserve was at the danger point and history was repeating itself. He illustrated by saying that if a man's store was run by someone else, on this basis, "pay out more than you take in," it would result in a new management. The American people thought that way to, and they would apply the remedy Tuesday (applause). He commented on the Wilson bill by making a few comparisons.

"Wheat flour is taxed, but acorns are free," he said. "Molasses has a duty on it, but thank heaven we can get balm of Gilead free, but I don't think the democrats can get enough even then to heal themselves when the people get through with them (applause). Hats are taxed but blades come in free (laughter). Hams are taxed 20 per cent, but dried blood is free; just use more dried blood and you'll be all right." (laughter.)

Cheese Taxed—Castor Oil Free.

"Now they tax cheese twenty per cent, too, but don't kick on that, for castor oil comes in free (laughter). While flannels are taxed, catnip isn't, use more catnip. Potatoes are taxed, but dandelions are not; sugar is taxed, too, but then you can buy diamonds cheap. Workingmen, you want more diamonds and less sugar! While they tax fresh meat, they let in old fossils free. This is so, the democratic party will grow! (Laughter.) They say they saved \$670,000 on kid gloves. What you want, farmer and workman, is more kid gloves, that's what has been holding you back, no free kid gloves. Oil paintings are free and so are ostrich feathers. Two years ago you wore rooster feathers!"—Here the applause kept him from finishing for some minutes, and continuing he said:

"Shoes are taxed twenty per cent, but false hair is free (laughter); you always wanted more false hair. Blanks

were taxed, but ice was free; manna is free; and I think that they did that because the people will need it if the democrats stay in power much longer (laughter); snakeskins, opium, skeletons, snails and turtles are free." (Laughter.)

"Cleveland refused to sign this by bred bill; do you wonder? He said it was the height of 'party perfidy and dishonor,' and asked, 'how can you face the people?' When the McKinley bill became a law, the author went through the country shaking hands with happy workmen; Wilson went to England and they banqueted him."

Wheat and barley were free, but the rice and peanuts raised in the south was protected 84 and 74 per cent.

Free trade made things cheap until American manufacturers were forced out and then the prices went up.

Save More Under Tariff.

He preferred \$2 a day and \$1 to live, because in one hundred days he would save \$100, while if he got \$1 a day and lived for 50 cents in one hundred days he would save but 50 dollars. "In India men raised wheat cheap but they worked for three cents a day and five yards of muslin was all the clothes they needed (laughter). American farmers couldn't live that way so they couldn't compete with India. For wool was needed because this country didn't produce a good enough article, yet Vermont wool took the prize at Melbourne, Australia, the greatest wool country where one man and five dogs watched a thousand sheep. Five pounds of wool made a whole suit of clothes, and cost sixty cents. The rest was labor. Labor was the bulk of the cost of everything. The south wanted cheap labor. They barred Chinese out and yet admitted their goods free. The finest cotton mill he ever saw was in China and the Chinese could make anything that America could. They should not be judged by Janesville celestial laundrymen. (Laughter.) They were intelligent if they did live on rats, cats, dogs and mice, (laughter) and if American men compete with them, they must do the same. Three cents a day was good pay for them and they boarded themselves. In Leeds, England not one workman owned his home. More American workmen owned their own houses than all the rest of the world combined."

Mr. Keator's talk was simple and convincing and made a deep impression on his hearers. Applause frequently compelled him to wait but he talked rapidly and so distinctly that every word was heard. When he finished Hon. A. P. Lovejoy proposed three cheers for Mr. Upham and it was then that it seemed as if something must break to let the noise out. It was a "rally as was a rally" and no mistake.

## APPLEBY ARRESTS THE ROSCOE THUG

ONE OF THE BANDITS PUT BEHIND THE BARS.

He Strayed Up to Beloit Saturday Afternoon and the Marshal Nabbed Him—Gives His Name as "Jack Smith" and Makes But a Week Denial of Charges.

The nifty highwayman who held up the Roscoe station agent at the point of a gun Sunday night and secured ten dollars in cash, is now resting comfortably behind the bars of Winnebago county jail in Rockford.

Marshal Appleby of Beloit, captured him in the Line City Saturday afternoon. The prisoner gave his name as John Smith, but this is not believed to be his real name. He is about twenty-five years old, smooth shaven, thin-faced and spare of build. He is apparently a tramp.

He does not deny very stoutly that he was implicated in the hold-up, but insists that the company cannot prove anything. He says his home is in Streator. Smith had a companion in the robbery who is still at large.

## That's the ticket.

There's a democratic ticket, but that, to use an old adage, "is the ticket for soup."

Rock county people need no introduction to the republican candidates, but seldom is so good a ticket nominated and a sketch of them can be read and pointed to with pride by all republicans.

First on the list comes W. H. Appleby, candidate for sheriff. Ever since the death of Charles North he has been the city marshal of Beloit and as such he has made an enviable reputation as an officer. This practical experience will be valuable to him. In addition, every man who who knows him has a good word to say; he enjoys the fullest confidence of everyone. The methods and arguments used to defeat him will rebound. His majority is growing every day.

W. J. McIntyre, the candidate for county clerk was nominated by acclamation to succeed himself. What stronger endorsement could a man get? The records of the county have been well kept by Mr. McIntyre and no better man can be found. Keep him there.

Charles N. Nye, the candidate for county treasurer is a man well and favorably known. He is a native of the town of Beloit and for fourteen years he has been a member of the county board and for two years he was chairman. Honesty and ability are written all over him and if his majority is in comparison with his worth there will be no democratic votes to count.

W. A. Jackson, the next district attorney is a man who will fill that office with distinction. He is a graduate of the state university and an able attorney. Rock county should have a good district attorney. Mr. Jackson will make a good one. Vote for him.

Theodore W. Goldin, the candidate for clerk of the court, is a man who has every qualification for that position. He is an able lawyer and a man of methodical business habits, just such a man as is needed to keep the county legal records. He was, with Oster in the fatal fight in the Little Big Horn, and is widely known as a soldier, as a scholar and a business man. His majority cannot be too big.

Oscar D. Rowe, ex-mayor of Janesville, and one of its best citizens and business men, is the candidate for register of deeds, and he will make a worthy successor to C. L. Valentine, who has done his work so faithfully and so well. Mr. Rowe has been a tireless worker for the republican party and has always been faithful to his trusts. His majority, to be equal to his ability, must be large. He is entitled to every vote, and he will get them all.

Otto G. Bleedorn who will succeed himself as county surveyor has held that position for some time and his work has been above reproach. He is thoroughly familiar with the duties of the office and is fully competent to perform them. His majority will be

as large as any on the ticket. Richard O'Donnell, the candidate for coroner has always been an enthusiastic republican and has worked for the ticket with a will. His endorsement at the polls will include every vote in the republican party and it is proper that it should be so.

That's the ticket.

Did you ever see a better one?

The democratic party introduced the coupon system into America. The coupon read:

Good For One Bowl  
of Free Soup.

The straight republican ticket this year, from top to bottom, without a scratch, should be voted by every republican. It possesses the element of strength in every particular and should command the hearty support of the party.

Major Upham, very truthfully said that the large and enthusiastic audiences that greeted republican speakers this year, meant something. The verdict at the polls tomorrow will show emphatically what they mean.

The democratic party is committed to tariff reform and free trade. If successful at the polls tomorrow, an era of hard times, such as the country has not seen in thirty years, will be the result.

Vote for Hon. Fenner Kimball for the assembly because he is thoroughly qualified to fill the position, and because the legislature of every northern state should be republican.

If Wilson should be placed at the retired list tomorrow he will have ample time for another foreign banquet before his services will again be required in this country.

Wisconsin is a good for 20,000 republican majority this year, if the republicans of the state do their duty tomorrow.

The dogs and democrats destroyed one of our best flocks of sheep in Jefferson county.

Vote the republican ticket tomorrow, if for no other reason, for self protection.

At least 500 years before the Christian era the Egyptians had axes of various styles, chisels, mallets, planes and saws, together with levels, rollers, wheels and pulleys.

Market baskets made of wire covered with a light cloth, and which fold into a small space, are to be brought out. The convenience of such an article is readily suggestive.

Miss Lewis and Mrs. Candace Wheeler have built a handsome block of woman's dwellings in New York. It will accommodate 500 women, in single rooms and suites, according to their incomes.

Branding live stock as well as dressed meats by electricity has come largely into use. The ham is held only for a few seconds against the white heat electric brand, and a clear, deep-cut impression remains. It is extremely rapid and cleanly.

## French Expedition Against the Hovas

PARIS, Nov. 5.—The government will ask the chamber of deputies for a credit of 60,000 francs for the expenses of an expedition against the Hovas, the ruling tribe of Madagascar.

## Incendiarism at Omaha.

OMAHA, Neb., Nov. 5.—Last evening an attempt was made by incendiaries to fire the Hammond packing house at South Omaha. Gasoline was thrown into the box making department and set on fire. It was discovered before gaining any headway and extinguished without difficulty. There is no clew as to who did the work.

## If the Baby Is Cutting Teeth.

Be sure and use that old and well-tried remedy Mrs. Winslow's Soothing Syrup for children's teething. It soothes the child, softens the gums, cures all pain, cures wind colic and is the best remedy for diarrhoea. Twenty-five cents a bottle.

## THE OLD-FASHIONED STYLE

of pill gives you a feeling of horror when you see it and when you feel it. Like the "blunderbuss" of a former decade, it is big and clumsy, but not effective. In this century of enlightenment, you have Dr. Pierce's Pleasant Pellets, which cure all liver troubles in the most effective way. For Indigestion, Constipation, Bilious Attacks, Sick and Bilious Headache, nothing has been found to equal these pills of Dr. Pierce's invention.

Mr. SAMUEL BAKER, Sr., of No. 161 Summit St., Philadelphia, N. J., says: "There is nothing that can compare with Dr. Pierce's Pleasant Pellets, as Liver Pills. They have done me more good than any other medicine I have ever taken."

## TOMORROW THE DAY OF A GREAT FIGHT

## AMENDMENT IS NOT TO BE VOTED UPON

### WERE PUT ON THE BALLOT BY MISTAKE.

County Clerks All Over the State Misconstrued Instructions—Makes No Difference Whether You Vote Them or Not as they Will Not Be Counted at All.

It now develops that the constitutional amendments which are included as part of the general election notice, and which appear on the official ballot for submission to the voters, are to be voted on at this election. They were incorporated in the instructions sent out from the secretary of state's office to the county clerks, who prepare the notices of election, and county clerk, McIntyre in common with nearly all other county clerks in the state, understood these instructions as requiring the amendments to be submitted to a vote of the people.

Examination shows that this is a blunder on somebody's part. The constitution requires that an amendment to the constitution must pass the legislature, be advertised for three months before the election of the next legislature, and then be submitted again to the legislature at the next session. If adopted by this second legislature also the amendment must then be submitted to a vote of the people.

Makes the Difference. The amendments which are incorporated in the election notice and official ballot for next Tuesday's election have been acted on by only one legislature, that of 1893, in the form of joint resolutions.

Notwithstanding the fact that county clerks generally have construed the instructions of the secretary of state to mean that the amendments should be voted on, the assistant secretary of state, T. B. Leonard, says that was not their intention. He says the only purpose was to bring the matter directly to the attention of the people at the time of electing members of the legislature, and that it was not intended to include the amendments in the official ballot. He says, however, that the ballots will not be invalidated because the amendments are included, and that it will be immaterial whether they are voted or not.

### WORKERS PLAN TO SAVE SOULS

County Missionary League's Idea of Organization is Being Perfected.

Rock county Sunday schools are becoming well organized and the workers are systematizing their labors in a way that will result in much good.

At the Sunday school convention in Shopiere, the need of township organization was introduced by John H. Leas of this city, and was unanimously declared necessary.

A committee of three was appointed by the president to select a president and secretary for the townships of Beloit, Bradford, Clinton, La Prairie and Turtle. The committee consisted of David Thorne, Henry Waite, and Miss Edna S. Gates, who reported the following nominations:

La Prairie—President, Mrs. George Sherman; secretary, Henry Tarrant, Bradford—President, Charles Boynton, Jr.; secretary, Jennie D. McArthur.

Clinton—President, E. L. Benedict, secretary, V. C. Tuttle.

Turtle—President, Frank Swingle; secretary, Kittie Gates.

Beloit—President, C. H. Edwards; secretary, Etta Thompson.

### HOT VARNISH CAUSED AN ALARM

Blaze at the Wisconsin Carriage Top Company Factory.

A kettle of varnish was carelessly left on a hot stove in the paint shop of the Wisconsin Carriage Factory this noon, and at 1 o'clock, when the hands returned to work, they found the varnish in a blaze, and the ceiling over the fire igniting. An alarm was turned in from box 151, the fire being extinguished before the department arrived.

### BRIEF LOCAL CHIPS.

THE cobbler seat rocker we are offering for \$2.85 is exactly the same chair as the other fellows ask \$4.50 for. Diamonds, Large Ones.

While passing F. C. Cook & Co's jewelry store to-day a rap on the door drew us in, and there we saw more wealth displayed in diamonds than it has ever been our privilege to look upon. Big ones and little ones, all the latest cuts and as clear and white as crystals. F. C. Cook & Co. had bought them for their holiday trade. While in there we also noticed 3 of their fine high grade watches being exchanged with 3 customers for the cash. An immense holiday stock is what this house has at present.

Cobbler Seat Rockers \$2.50.

I did not sell 93 easels last week, probably on account of the rainy weather. I do expect to sell, an oak cobbler seat rocker, to every person intending to purchase one, as my price on them is \$2.50. I have a full line of parlor and couch frames, which I make to order, at less than others ask for o'day's goods. Call and examine my stock. W. H. BOSTWICK.

## MANY REGISTERED WHO CANNOT VOTE

### PROSECUTION WILL FOLLOW IF TRY TO DO SO.

Men Who Have Not Been In the Country a Year and Cannot Read or Write the English Language Have Been Registered by "Vigilant" Democratic Managers.

It has been ascertained that a number of illegal registrations have been made which may lead to future trouble. They say that the democratic committee has been "over vigilant" and that names are registered of persons who have not resided in the state over two months, and less than one year in the country. Challengers have noted these persons, and they will be challenged if their votes are offered. In case the votes are sworn in prosecutions will follow. It is the duty of both republicans and democrats to see that not one illegal vote is cast. A person who has not resided in the state one year is not entitled to vote.

Some of the parties are unable to speak a word of English, cannot write their own name, yet they have been made to make their mark on affidavits.

Kathleen Whiting Kelly.

Three short days ago the happiness of Mr. and Mrs. John Kelly was made complete by the advent of a daughter, who came to brighten their fireside. To-day that happiness was cut short by the death angel, and at 3 o'clock this afternoon the lifeless clay was laid to rest in Oak Hill, the funeral services being private. It is ever thus; joy and sadness go hand in hand, and the congratulation of to-day becomes the sympathy of to-morrow.

## NOVEL NOTIONS.

## Bonnets Will Be Worn to Show the Front Hair.

For some time past, as the hair has been worn rather high, the inclination has been to wear the bonnet well forward. But news from Paris is that the bonnet will be worn sufficiently far back to show the arrangement of the front hair and also to make the things seem really a necessity. The shape which is most favored is that known as the Dutch cap, which fits the head quite closely, after the fashion of the velvet and head hats worn by the pretty Dutch girls in some pictures. Modernized, the cap reaches to just above the ears, is quite flat on top and extends in the back to midway of the head. It is made of felt, of velvet, of cloth and occasionally of moire. The prettiest and most becoming ones are those made of velvet. The decoration usually stands high up and is placed on top of the little bonnet near the front. To carry out the idea of a Dutch cap there is also shown in velvet and in glowing colors bunches of tulips that suggest their being precious in the eyes of the old time collector.

Flowers now follow fashion, like bonnets and dresses. No prophetic spirit ever guides the flower grower how to meet the

A CLOTH GOWN.

public taste, so that sometimes quantities of certain cut flowers turn out to be most unsalable. This year roses were not nearly as much in demand for buttonholes as the humble blue corncockle, which still seems to maintain its place. The hideous green carnation, tinted by some process in which verdigris is used, is on sale, and there are actually buyers who like to wear it.

A rather novel design is shown in the model illustrated. It is of dahlia cloth and has a bell skirt and a round bodice, with a back gathered at the waist. The skirt has a line of narrow black gimp around the foot as its sole trimming, but an immense bow of wide black velvet ribbon is fastened at the waist in front, with two long fringed ends falling to the feet. An end of the ribbon is carried up each side of the bodice to the chest, the edges being fastened down with gimp. The tight black velvet sleeves have a puff of dahlia velvet from shoulder to elbow.

## CHILDREN'S CLOTHING.

## Simply Made Garments of Serge and Cheviot the Most Satisfactory.

Those who have plenty of money need little advice in regard to the selection of clothing for their boys. To get those that are becoming and fashionable is comparatively easy, and as long as the stock on hand may be continually renewed without inconvenience there is no trouble. The woman with a small income must, however, find the purchase of attire for her growing, active boy a serious responsibility. She would not on any account check his activities, or else he becomes weak and effeminate, but these activities, however profitable they may be to his body, are extremely trying to ordinary clothing. There are many to sympathize with that mother who longed for the invention of a practicable leather suit for growing boys. But, alas, none has so far been invented which is within the means of the average buyer. A suit should be made, in the first place, of strong, good cloth. Cheap shoddy material is like tow in the fire before the onslaught of the boy. For all but the warmest weather a good cheviot is comfortable and will resist his ravages as well as any-

CHILDREN'S COSTUMES.

thing. A boy cannot change his school clothes every time he wishes to indulge in a game of leapfrog or climb a tree. There fore a suit which shall be at the same time decorous enough for the schoolroom, and stout enough for the playground is a desideratum for the boy of from 6 to 16.

For girls' school gowns there is nothing better than a good quality of serge. This material stands wear and exposure to dampness and does not tear easily, as does cashmere. Although girls are not quite as hard upon their clothing as are boys, they are usually fond of active sports and up to the age of 11 or 12 years at least hate to have their amusements hampered by the need of taking care of frippery, and it is only just to allow them liberty from the bonds of dress as long as they desire it, which is not very long.

The first gown illustrated is of tan and blue figured woolen goods. The bretelles, epaulettes and collar are of plain blue goods and the belt of blue velvet. The wrists are edged with fur. The second gown is of figured woolen goods in old rose. It is in one piece and has a scarf drapery back and front.

## ELECTION NOTICE.

OFFICE OF COUNTY CLERK  
JANESVILLE, OCTOBER 24, 1894.

To the electors of Rock county:

Notice is hereby given that a general election is to be held in the several towns, wards and election precincts in the county of Rock, on the sixth day of November, 1894, at which the officers named below are to be chosen. The names of the candidates for each office to be voted for, whose nominations have been certified to this office, and the questions submitted to a vote, are given opposite the name of the office and under the appropriate party or other designation, each in its appropriate column below.

## INFORMATION TO VOTERS.

The following instructions are given for the information and guidance of voters: A voter upon entering the polling place, and giving his name and residence, will receive a ballot from the ballot clerk, which must have endorsed thereon the names or initials of both ballot clerks, and no other can be used. Upon receiving his ballot, voter must retire, alone to a booth or compartment, and prepare the same for voting. A ballot clerk may inform the voter as to the proper manner of marking a ballot, but he must not advise or indicate in any manner whom to vote for. The voter, if he wishes to vote for all the candidates nominated by any party, should make a cross mark, X, under the party designation printed at the top of the ballot in the square made for that purpose. A ballot so marked, and having no other mark, will be counted for all of the candidates of that party in the column underneath, unless the names of some of the candidates of the party have been erased, and will be counted for all names written in lieu of one erased or pasted over a printed name. If the voter wishes to vote for some of the candidates of different political parties, he should erase the names of the candidates he does not desire to vote for, and make a cross mark, X, after the name of each candidate he does; desire to vote for. If he wishes to vote for a person for a certain office whose name is not on the ballot, he must write the name in the blank space under the printed name of the candidate for the office and make a cross, X, in the square at the right of it. The ballot should not be marked in any other manner. If the ballot be spoiled, it must be returned to the ballot clerk, who must issue another in its stead, but not more than three in all to any one voter. Five minutes time is allowed in booth to mark ballot. Unofficial ballots or memoranda, to assist the voter in marking his ballot, can be taken into the booth, and may be used to copy from. The ballot must not be shown so that any person can see how it has been marked by the voter. After it is marked, it should be folded so that the inside cannot be seen, but so that the printed endorsements and signatures of the ballot clerks on outside may be seen. Then the voter should pass out of the booth, give his name to the inspector in charge of the ballot box, hand him his ballot to be placed in the box, and pass out of the voting place. A voter who declares to the presiding officer, that he is unable to read or that by reason of physical disability he is unable to mark his ballot, can have assistance of one or two election officers, in marking same, to be chosen by the voter. The presiding officer may administer an oath, in his discretion, as to such person's disability. The party designations and candidates for the different offices are as follows:
